EDUCATION

Dwarkadas Jivanlal Sanghvi College of Engineering, B.Tech in Computer Science and Engineering (IOT and Cyber Security with Block Chain Technology) | Mumbai, Maharashtra GPA: **9.00 / 10** 2022 - 2025
Thakur Polytechnic, Diploma in Computer Engineering | Mumbai, Maharashtra Percentage: **91%** 2019 - 2022

Core Subjects: Data Structures and Algorithms, Digital Logics, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Microprocessors, Blockchain Technology, Cryptography and Cryptocurrency.
Minors: Statistics Foundation | Data Science | Machine Learning and AI Foundations | Deploying Scalable Machine Learning

EXPERIENCE

Static Int, Application Developer (Intern) | Mumbai Aug 2021 - Sep 2021

- Designed and developed captivating mobile applications leveraging the Flutter framework to enrich user experience and functionality, ensuring intuitive interfaces and seamless performance for enhanced user satisfaction.
- Showcased rapid learning by proficiently acquiring new technologies like blockchain, effectively integrating them into projects to fulfill specific requirements and enhance overall project outcomes.
- Participated in code reviews and provided feedback to peers, fostering a culture of continuous improvement.

Companion, Application Developer (React Native Intern) | Mumbai Aug 2022 - Nov 2022

- Spearheaded React Native app for Companion, focusing on seamless user interaction and engaging frontend.
- Led backend development, architecting scalable APIs and databases for efficient data management.
- Engineered backend for authentication, storage, and real-time communication, optimizing performance.

GoChanakya, Integration Engineer (Intern) | Mumbai June 2023 - Jan 2024

- Spearheaded the UI/UX development, tailoring the interface to meet the needs and preferences
- Collaborated with 4 cross-functional teams to integrate user data into the platform, ensuring seamless access to active market information for users.
- Conducted comprehensive testing and debugging to identify and resolve integration issues, ensuring seamless platform functionality.

DJS ISACA, Pioneering Treasurer and Financial Strategist | Mumbai Jan 2023 - Mar 2024

- Managed budget, forecasting revenue and expenses for operational needs and strategic initiatives.
- Prepared timely financial statements and identified financial risks and implemented strategies to mitigate them.
- Ensured transparency and fiscal responsibility through management of financial matters.

Indian Society for Technical Education, Event Coordinator and Engagement Expert | Mumbai Nov 2019 - May 2022

- Orchestrated 6 diverse events with precision, ensuring seamless execution and high attendee satisfaction.
- Implemented innovative engagement strategies to enhance participant interaction and overall event experience.

SKILLS

Languages	Python, C/C++, Java, JavaScript, HTML/CSS, SQL, Node, React, Express, MongoDB.
Technical Skills	Android Studio, Git, Figma, Bubble, Responsive Design, Integration and Authentication, Workflows.
Softskills	Leadership, Event Management, Teamwork, Problem-solving, Documentation, Collaborative.
Project Management	Planning and Scheduling, Task delegation, Budgeting, Risk assessment and mitigation.

PROJECTS

TastyWaves – Food Delivery Web application | Demo: github.com/devpandhi/tastywaves

- Employed innovative methods to ensure a diverse array of delectable dishes, while streamlining doorstep delivery processes to maximize customer satisfaction and culinary enjoyment.
- Designed a user-friendly interface to enhance the ordering experience, positioning TastyWaves as the preferred cravings satisfaction platform.

ChatApp – Real-time Messaging Platform | Demo: github.com/devpandhi/chatApp

- Developed ChatApp, a real-time messaging platform offering seamless communication through an intuitive user interface.
- Incorporated customizable user profiles to personalize interactions, fostering a sense of identity within the platform.

Food200 – Surplus Food Redistribution Web application | Demo: food200.onrender.com

- Carried out real-time inventory tracking, routing, waste-minimizing pricing, safety guidelines, volunteer management, analytics, and community engagement features.
- Aimed to streamline surplus food distribution processes, maximizing resource utilization and minimizing waste.
